Practice Areas

CEQA / NEPA | Endangered Species | Food & Agriculture | Food & Agriculture Litigation | Groundwater Law | Sustainable Groundwater Management Act (SGMA) | Water Law | Water Rights Litigation

David Cameron is a water resources attorney who advises and represents clients on water rights and environmental issues throughout California.

David's practice is focused on securing and protecting water rights, the purchase and sale of water rights, compliance with the Sustainable Groundwater Management Act (SGMA), water banking, and related environmental and endangered species issues. His practice includes litigation in state and federal courts, administrative proceedings before the State Water Resources Control Board, public agency representation, as well as transactional water-related matters including due diligence. David enjoys tackling complex legal issues and providing practical solutions to clients, which include water districts, irrigation districts, cities, counties, and agricultural interests large and small.

Experience

Water Rights/Public Agency Representation

- Special Counsel for multiple districts on water rights-related matters.
- Facilitate the purchase and sale of water rights and contractual entitlements to water among public and private entities. Navigate approval through the State Water Resources Control Board and U.S. Bureau of Reclamation, and ensure compliance with the California Environmental Quality Act.
- Represent public agencies before the State Water Resources Control Board in protecting existing rights and pursuing new water rights.
- Represent private landowners and public agencies before the State Water Resources Control Board in water rights enforcement matters.
- Counsel public agencies regarding conversion of water service contracts.
- Successfully negotiated provisions of state Wild & Scenic Rivers Act designation to ensure protection of water rights.

- Facilitated water rights and environmental compliance plans for multiple large ranches.
- Prepare water rights due diligence analyses for institutional investors.
- Provide water rights opinions regarding validity and use of riparian, appropriative, and pre-1914 rights.
- Developed agreements for a groundwater recharge project that applies flood water to in-production farmland.
- Counsel clients on Endangered Species Act compliance, including the negotiation of a Habitat Conservation Plan.
- Counsel public agencies regarding compliance with the Brown Act, Proposition 218, and Proposition 26.
- Assist public agencies with Political Reform Act, Government code section 1090, and Public Records Act issues.

The Sustainable Groundwater Management Act (SGMA)

- Created multiple Groundwater Sustainability Agencies by joint powers agreement and memorandum of understanding.
- Assisted in drafting special act legislation creating an exclusive Groundwater Sustainability Agency (GSA).
- Assisted with preparing basin boundary modifications.
- Counsel GSA clients regarding options for funding.
- Counsel clients regarding future impacts of SGMA.
- Counsel on the development of groundwater recharge projects, including securing necessary water rights.

Litigation

- Litigate water rights issues throughout California.
- Prevailed on appeal and invalidated groundwater ordinances in the City of Mendocino.
- Defeated CEQA challenge regarding approval of water district operations activity.
- Prevailed on summary judgment on behalf of water district against trespassing landowner and reached global settlement in favor of district.
- Successfully obtained, in collaboration with other attorneys, a preliminary injunction against a large water user that pumped in excess of its decreed rights.
- Drafted briefing that resulted in the denial of a writ of supersedeas and denial of appeal, preserving the trial court's injunction against excessive groundwater pumping.
- Litigated against groundwater bank, settlement of which resulted in limitations on operation of bank that protect nearby landowners.
- Represented landowner in state court and obtained favorable settlement against neighbor who interfered with water supply and conveyance.

- Successfully defended and secured large forester's water rights and point of diversion against interference.
- Obtained successful published opinion regarding the recoverability of attorneys' fees.
- Assisted in the representation of a California county in a multi-million dollar dispute over future hydropower revenue and water rights.
- Assisted in the successful defense of a water district against CEQA challenges, and obtained denial of award of attorneys' fees.
- Successfully represented grower against a well driller for failing to timely develop well.
- Assisted in the successful defense of a well driller against claims of failure to properly site agricultural well.
- Assisted with numerous crop loss cases on behalf of central valley growers, including those caused by spray drift and negligent harvest.
- Assisted in representing citrus growers in a multi-million dollar matter against packers and international shippers.
- Assisted in the successful prosecution of the theft of trade secrets on behalf of a large agri-business client.
- Successfully defended a private landowner and county against consolidated CEQA challenges to land use approvals in collaboration with another attorney.
- Prepared anti-SLAPP motion that resulted in dismissal of lawsuit against a public entity.
