

2021 Intermediate CEQA Workshop

Webinar for Practitioners

The Association of Environmental Professionals invites you to register for the Intermediate CEQA Workshop, a 4-hour webinar offered on two different dates for your convenience. The curriculum takes us beyond the *essentials* to provide a deeper understanding of how the California Environmental Quality Act and State Guidelines are practiced, and includes illustrative examples and case studies for mid-stage professionals. This webinar will feature a curriculum developed specifically for those involved in the environmental review process including consultants, regulators, applicants, and industry professionals, and will benefit practicing professionals as well as early stage practitioners looking to level up their skillset (AICP-CM credits available). In addition to the curriculum, there will be interactive Q&A plus networking time thereafter. The webinar recordings will be made available to attendees afterward for reference.

Topics will include:

- **A Brief Refresher on CEQA Essentials**
- **Exemptions** (unusual circumstances, standard of review, mitigation/avoidance)
- **Initial Studies and NDs/MNDs** (Fair Arguments)
- **Draft EIRs** (Scoping, Objectives, Baseline, Thresholds, Mitigation, Cumulative Analysis, Alternatives)
- **Final EIRs** (Responding to Comments, Findings, Statement of Overriding Considerations)
- **Subsequent Review** (Addenda, Supplemental Documents, §15183)

Register On-Line Only at www.califaep.org

Date	Wednesday February 10 th	Thursday February 25 th
